1. Install the hardware lock drivers. If hardware lock drivers have already been installed, skip to the next step. The drivers can be installed by running the **Sentinel System Driver Installer.exe** program found in the SMS installation directory.
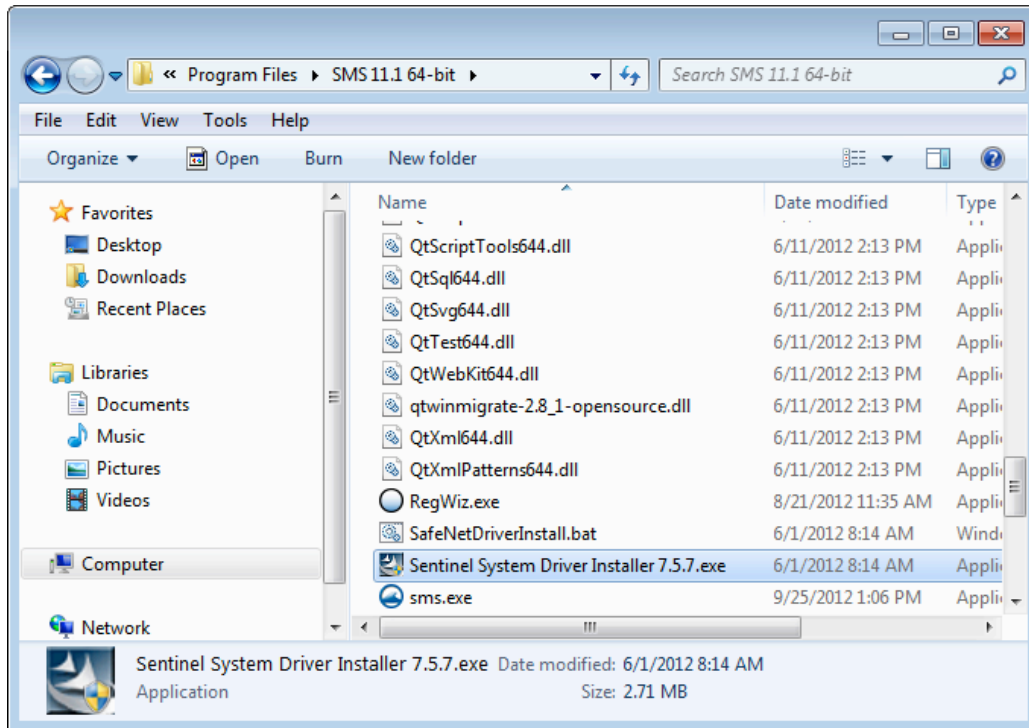

2. After installing the hardware lock drivers, plug the Aquaveo hardware lock into an available USB port.

3. Start SMS and the program should automatically detect the hardware lock. If the Welcome dialog appears, click the **Register…** button.
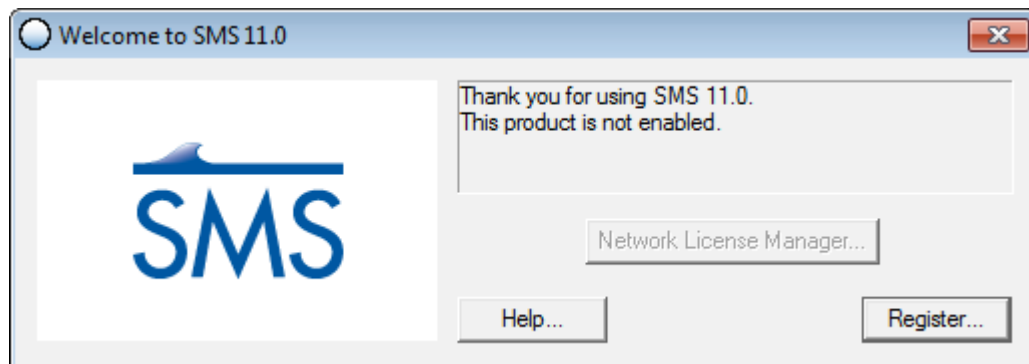

4. Select **Hardware lock** for the Licensing method and click the **Next >** button.

5. In the Hardware lock options, select **Get license from a single user lock** and click the **Next >** button.

6. If the registration is successful, click **Finish** to exit the Registration Wizard.

Registration Wizard - Step 3

Status
Registration successful. Press Finish to see enabled components.

< Back   Finish   Cancel

---
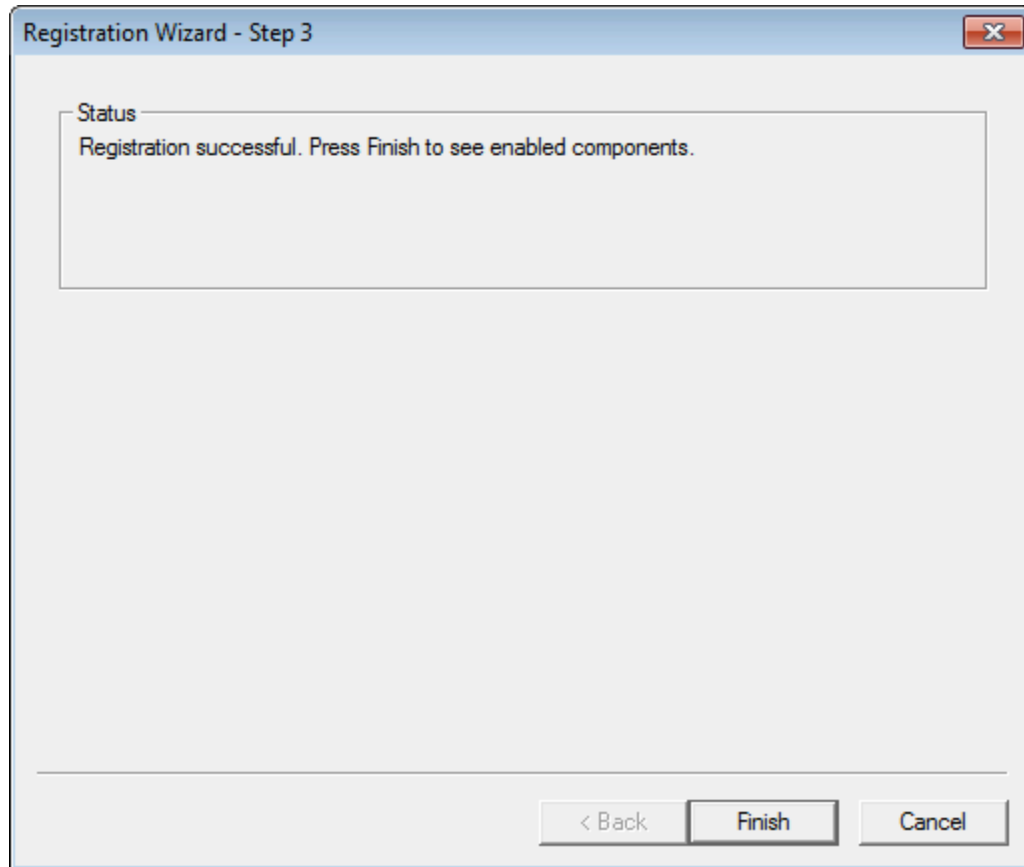

7. The Register SMS dialog displays the registered components, licensing method, and license expiration dates.
