1. Start WMS and select the **Register...** button when the welcome screen appears. If the welcome screen does not appear automatically, select **Register...** from the **Help** menu in WMS.

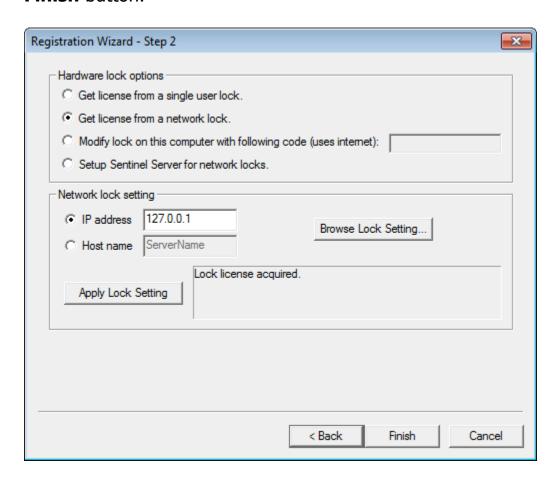

Select Hardware lock for the Licensing method and click the Next > button.

- 3. In the Hardware lock options, select **Get license from a network lock** and click the **Next** > button.
- 4. Enter the **IP address** or **Host name** of the server hosting the network hardware lock.
- 5. Click the **Browse Lock Setting...** button. This opens a web browser and tests the a connection to the hardware lock over a local network.
- 6. Click the **Apply Lock Setting...** button.
- 7. Once the "Lock license acquired" message appears, click the **Finish** button.

8. The Register WMS dialog displays the registered components, licensing method, hardware lock serial number, and license expiration dates.
